JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Monday - 29 October 1962

25X1

1. [   ] In view of the unexpected presence of Congressman Ken Hechler (W. Va.) in a briefing given by the DCI to a group of Governors on 27 October 1962, we were requested to talk to Hechler to remind him of the sensitive nature of the briefing. He had not been present when this injunction was given to the Governors. I talked with Hechler about this and he indicated he well understood it was classified information and his record would show he knew how to handle such information. I assured him that our purpose was to be of assistance to him so that he would be fully aware the information he had received was classified. I offered to go into more detail with him and he stated he would contact me later for a meeting on this.

2. [   ] Henry Oglesby in the office of Representative Herbert C. Bonner (N. C.) called to inquire if we had ever finished our clearance on him since he was planning to take a trip and the question of a clearance had been raised by the Air Force which is handling the trip. I advised him that we had completed our clearance and that he should suggest to Colonel Mims of AFL&L that their security people check with our security people. I explained to Oglesby that this type of cooperation went on daily. I suggested if they have any problem that he have Colonel Mims call me on the matter.
